Subject: CO&A list -

here you go -

I made a new table with just the CO&A residents on it (note that I added the renter for Ex. 6 - Personal Privacy trailer to this list per our conversation earlier today - this will help with separating the data out for review). This spreadsheet includes the first 4 -

Prior to sampling (also as we had discussed today) I will send you all the pertinent information on the wells that I can glean from the surveys - I am sure you are planning to deal with every issue.....

I will send you the rest of the list at the end of the week. I have to renumber a few and cross check what I have...remember that the resident info is DRAFT so be aware that the addresses and other info may evolve as we collect more info - thanks!
